

CRYSTAL EMR

- ▶ Designed Specifically for Ophthalmic Clinics
- ▶ Caters to multi-consultant/ multi-branch scenario

...
...
... Leading Ophthalmic EMR Systems

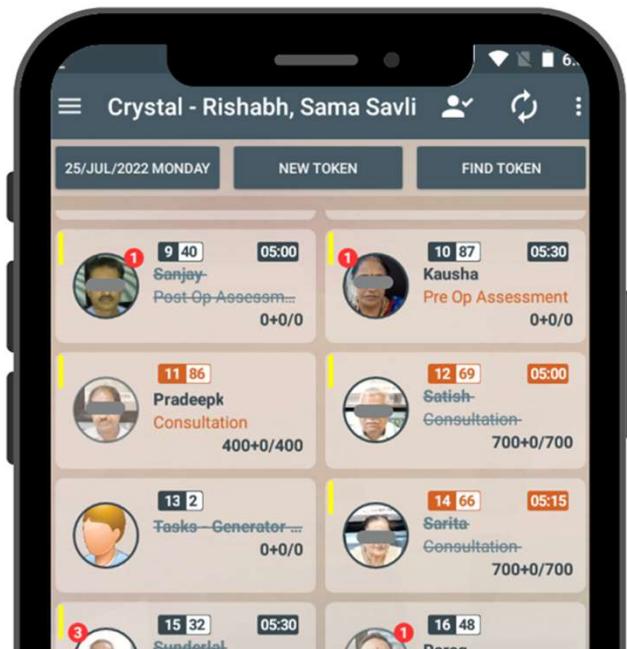

...
... Since 1997

Crystal EMR App

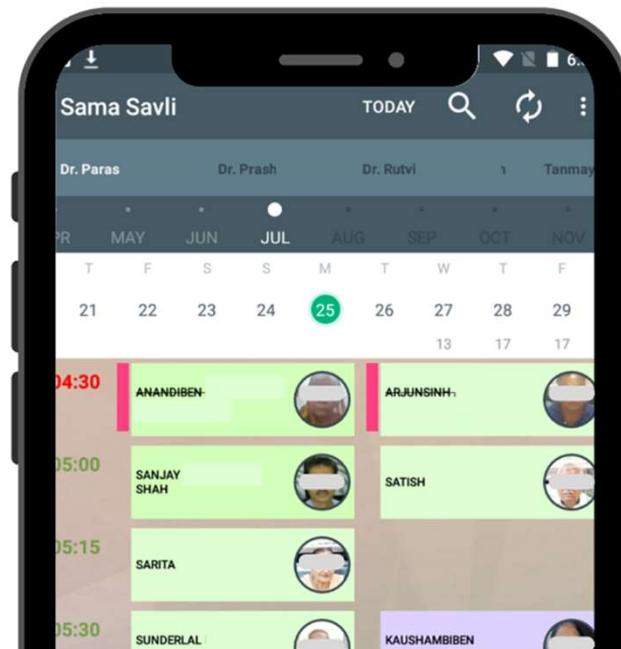

Android based EMR application,
build specifically for ophthalmic
community.
To record and maintain data of all
the patients visiting the clinic.

Appointments App

Separate Android app which
integrates seamlessly with
Crystal EMR app.

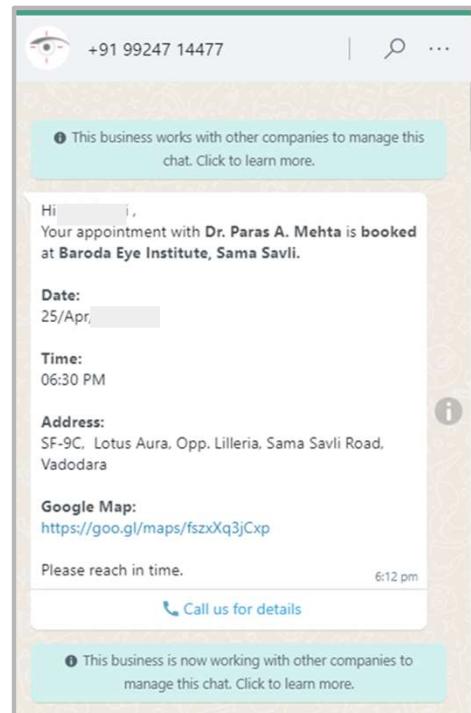

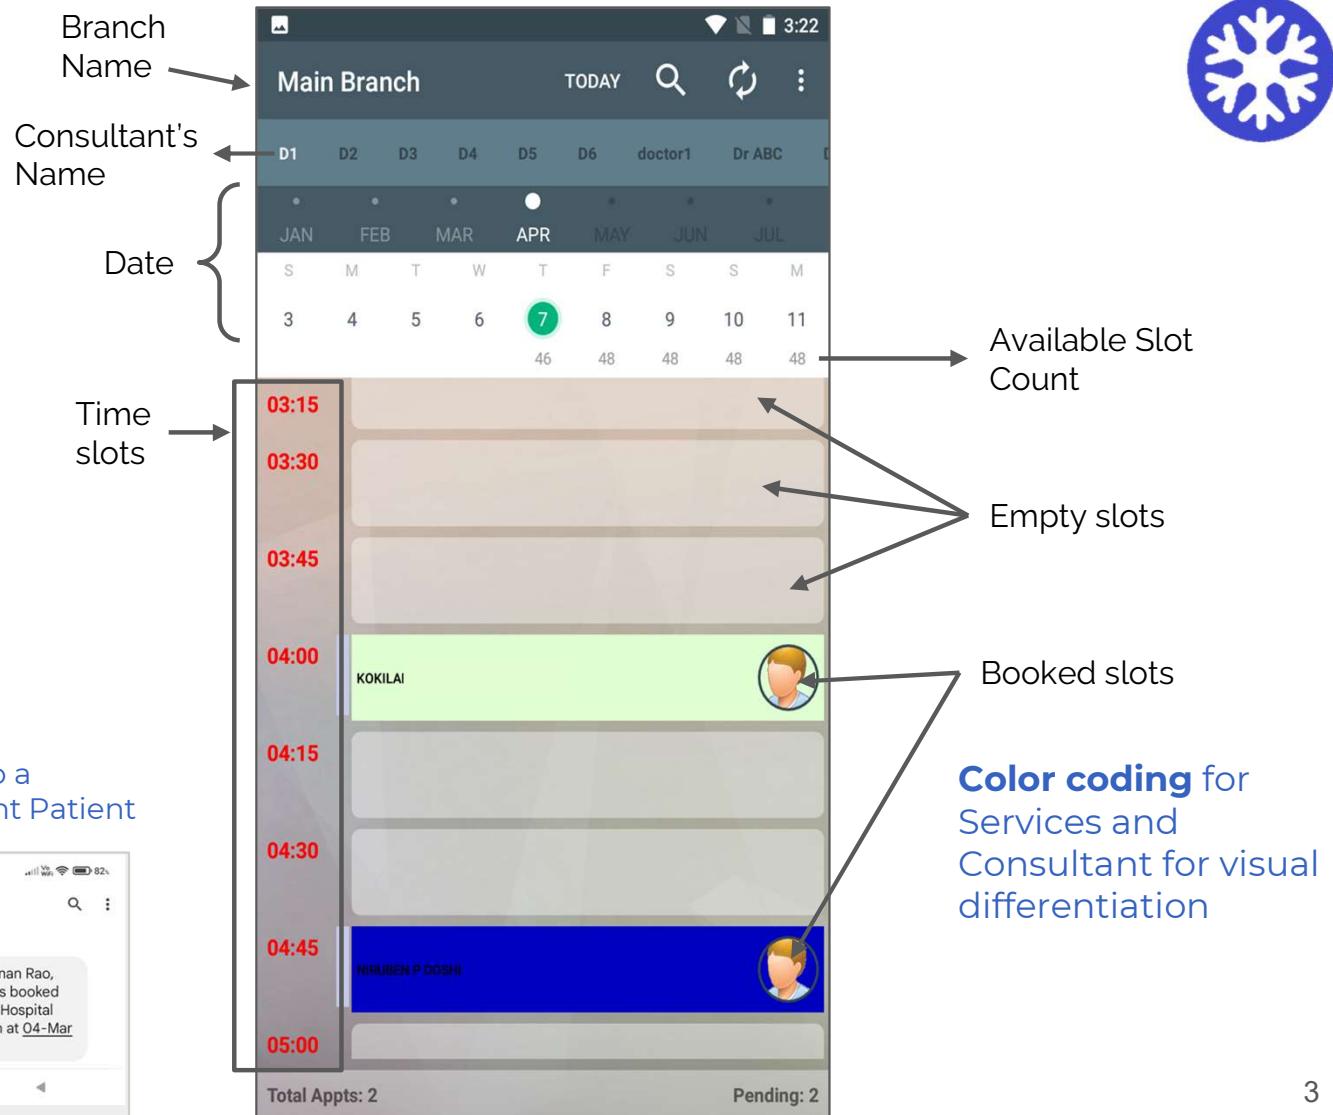

Appointment App

Multi-Branch, Multi-Consultant.

Send WhatsApp to a Appointment Patient

Send SMS to a Appointment Patient

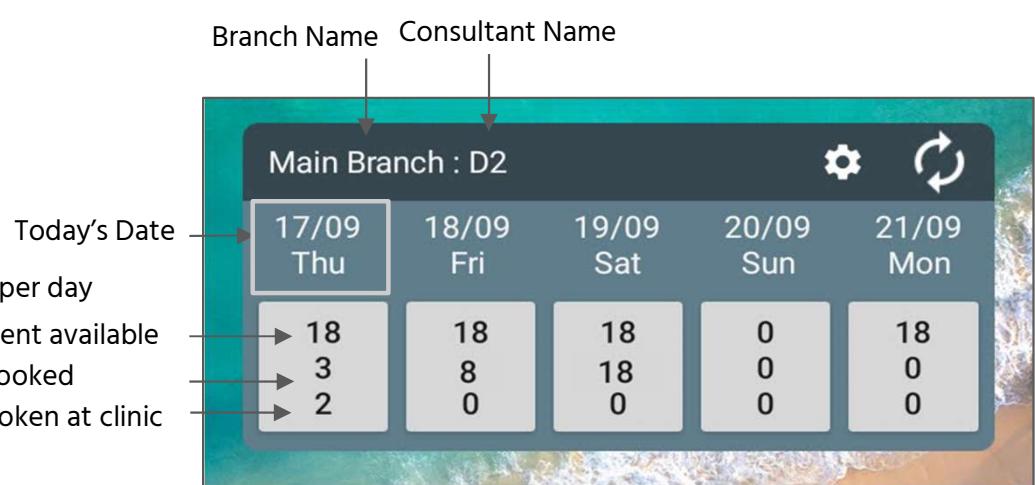

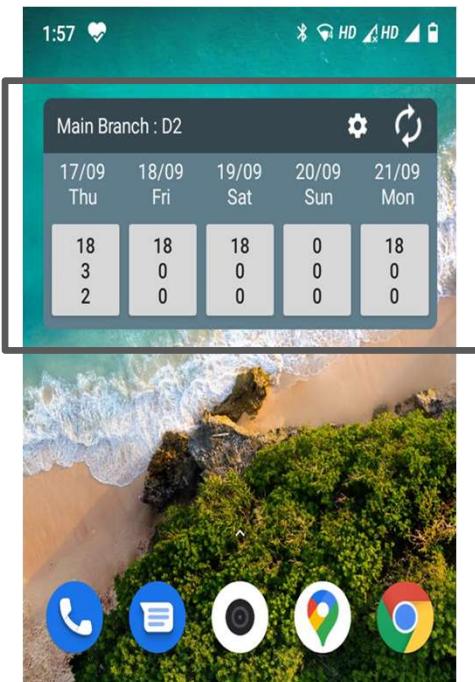

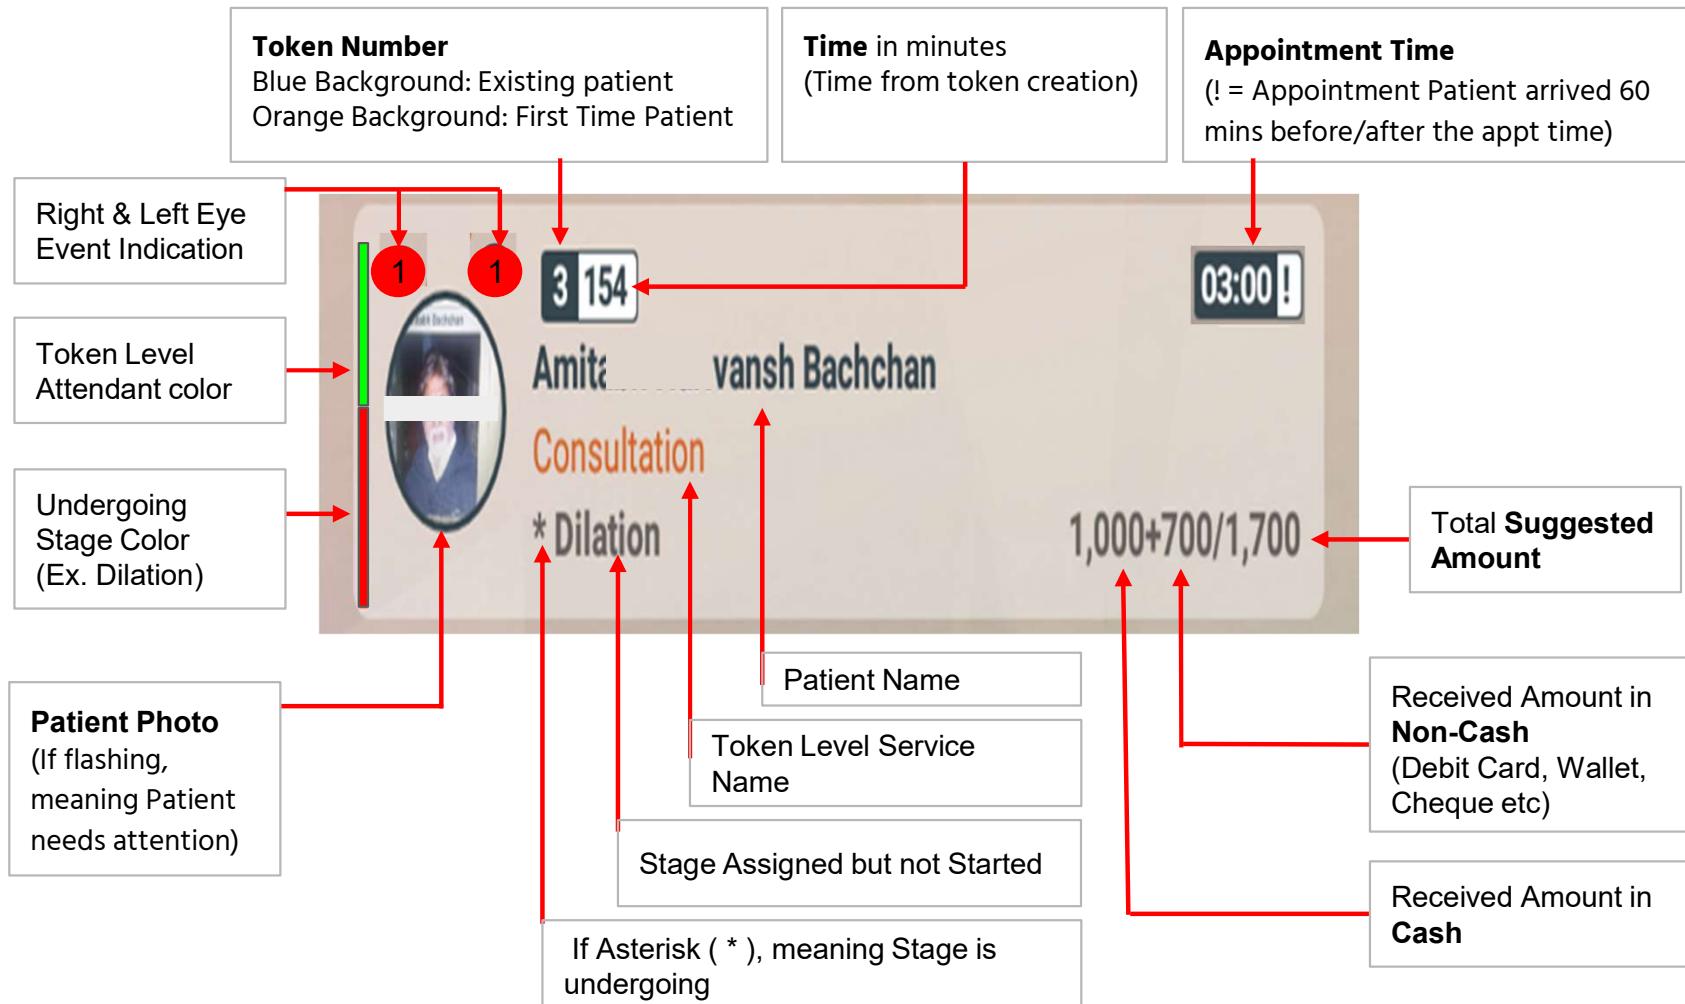

Appointment App - Widgets

Best way to use Appointment app is by creating a **Widgets**.

Create a Widget **per consultant**
per Branch

Consultation Stage

The figure displays two screenshots of a mobile application interface for a consultation, illustrating the progression of input in the 'Clinical Impression' field.

Left Screenshot (Initial State):

- Clinical Impression: Mr. Sanjay Girdharlal Shah, 29/07/1963 (59 Yrs / Male)
- ICD Diagnosis: [H25812] Combined forms of age-related cataract, left eye
- Additional Diagnosis: [H524] Presbyopia, [H52213] Irregular astigmatism, bilateral
- Investigations Advised: Urine Complete (Routine + Microscopic), ,Blood PP2BS, ,CBC, ,S. Creatinine
- Treatment Given: _____
- Advice Given: Cataract Surgery, of Left Eye, at patient's discretion
- Medicine Prescription: _____
- Follow-up: _____
- Review Plan: _____

Right Screenshot (After Input):

- Clinical Impression: Mr. Sanjay Girdharlal Shah, 29/07/1963 (59 Yrs / Male)
- Clinical Impression: **cataract** (The word 'cataract' is now typed into the field)
- Left eye age related cataract
- Near Mature Cataract
- Both Eyes Age Related Posterior Subcapsular Cataracts (Left > Right)
- left eye. Cataract
- Mature total intumescent cataract
- Early cataract -BE ; RE-glaucoma suspect
- Both eyes early cataract

TrueDocs - Data Entry

1. Open TrueDoc

This screenshot shows the TrueDocs data entry interface. It features a top header with patient information fields: Name, Age/Gender, Mobile No, Address, Branch, Case No, Date, Ref By, and Patient ID. Below this is a 'Reason for Visit' field and a 'Document Info' section. The main form area contains sections for 'Ophthalmic History' (with a red box highlighting the first field), 'Systemic History', 'Family History', 'Birth History', and 'Nutrients'. There are also tables for visual acuity (UCVA, BCVA) and other clinical parameters like Schirmer, IOP, Pachy, Color Vision, Keratometry, ACD, AL, WTW, Gross Exam, Slit Lamp, Fundus, and Other Tests. Sections for Diagnosis, Investigations, Rx, Further Tests/Remarks, Advice, and Follow-Up are also present. At the bottom are two eye illustrations.

2. Click on any one field

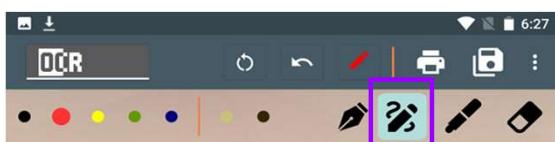

This screenshot shows the same TrueDocs interface as above, but with a large white hand cursor pointing to the first field in the 'Ophthalmic History' section. A blue rectangular overlay covers the bottom half of the screen, containing the word 'Click' in white text. At the bottom of this overlay is a row of five colored circles (red, blue, green, black, brown). Below the circles is the text 'History - Ophthalmic - Others'. At the very bottom are four buttons: 'CLEAR', 'SAVE', and 'CANCEL' on the left, and a double arrow button on the right.

3. Enter the details OR Select from drop-down list

This screenshot shows the same TrueDocs interface with a purple rectangular overlay covering the bottom half of the screen. Inside this overlay, there is a list of items: 'Retina Treatment', 'Retina Surgery', 'Retina LASER', and 'ret'. Each item is preceded by a small orange horizontal bar. At the bottom of this overlay are four buttons: 'CLEAR', 'SAVE', and 'CANCEL' on the left, and a double arrow button on the right.
